INSTALLING YOUR NEW ROGUE M.O.L.L.E

STEP 1

Start with double-checking all the correct components and gathering the tools required.
## STEP 2

Remove the factory grab handle.

STEP 3

Loosely fit the shelf brackets using 2 M6 by 20 dome head bolts with washers. Repeat this on the other side of the vehicle.

STEP 4

Fit the shelf onto the brackets from the rear passenger seat. NOTE: The aluminium may have a slight warp to it. This is normal. The shelf will flatten once firmly bolted.

STEP 5

Loosely fit the corners of the shelf with the M6 by 12 bolts with washers and the M6 hex nuts.

STEP 6

Loosely install the remaining M6 by 12 bolts with the washers and the M6 hex nuts.

STEP 7

Check the shelf is in the correct position and tighten all the bolts. We recommend tightening the corner bolts last.
