

PREMIUM STEEL TRAY

2023 CATALOGUE

AUSTRALIAN MADE PRODUCTS

DMW Trays

It can be hard to find a good quality ute tray that is built to last. Not only are our ute trays made of the highest quality materials, they are also designed, manufactured and tested right here in Australia. That means you can trust that our products will stand up to the toughest conditions. We have three different tray designs and options to choose from, so you can find the perfect ute tray for your application. Whether that's touring Australia, a quick weekend getaway or suitable for the worksite. We have a tray to suit all applications. This catalogue will outline the 'Premium Steel' tray. The Premium Steel tray has been designed and manufactured to suit vehicles such as Landcruiser 79 Series, 200 Series, Hilux, D-Max, Ranger and more!

CLASSIC DESIGN

The Premium Steel tray is designed to not just be extremely functional and practical, but has been designed for those who love a classic looking tray design. We have carefully adopted the Premium Steel tray design to suit the lines of the vehicle to ensure the tray is not just practical, but looks good from any angle!

STRONG AND DURABLE

The DMW Premium Steel tray has been designed to suit the adventurer or tradesman looking for a robust steel tray that is made right here in Australia. This 'no fuss' tray is perfect for anyone looking to utilise traditional tray features in a practical and robust package.

TAPERED TOOL BOXES

Optional rear tapered tool boxes provide excellent storage capabilities. Whether it houses a compressor for the weekend beach trip, camp equipment or tools, the tool boxes are a great use of additional storage space.

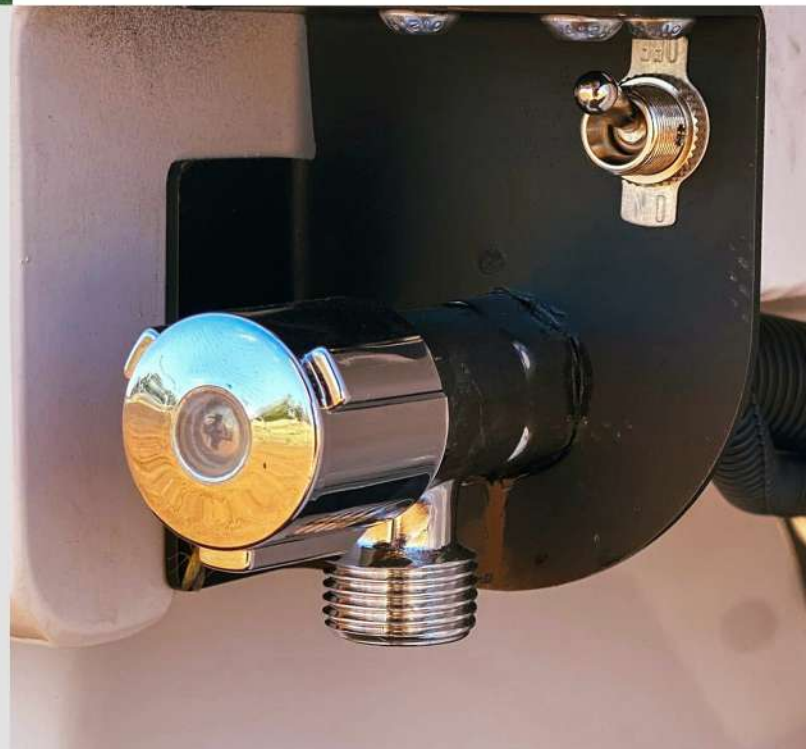

SEALED & LOCKABLE TRUNDLE DRAWER

The Premium Steel tray comes with an option of adding a sealed and lockable trundle drawer. The drawer is a great place to put tools, camp equipment and recovery gear. Being lockable, it is also suitable for firearms. The drawer can also double as a work or camp table if needed!

70L WATER TANK

The Premium Steel tray has an optional 70L water tank which is either gravity fed or is powered by a pump with a tap located under the tray.

60L HEADBOARD DIESEL TANK

The 60L headboard diesel tank is a great option for those who love getting away on long trips. Tucked away into the headboard of the tray, the tank makes great use of an otherwise unused space. If you are an adventurer that requires a larger fuel range, the headboard diesel tank is a great option for you!
